### 3. Scope of works/Technical specifications

#### Project background

The South African National Energy Development Institute (SANEDI) is an agency of the Department of Energy. SANEDI exists to direct, monitor and conduct applied energy research and development, demonstration and deployment of specific measures to promote the uptake of Green Energy and Energy Efficiency in South Africa.

In 2010, government established the South African National Energy Development Institute (SANEDI) to undertake nationally focused energy research, development and innovation as well as undertake energy efficiency measures with a strong relevance for South Africa. While SANEDI was established as an organ of state, various other government and academic institutions undertake energy-related research in and around its specialised areas. In this regard, SANEDI needs to leverage the strengths, knowledge and expertise of existing institutions involved in energy research by establishing partnerships and synergies which will enable it to lead the transformation of the energy sector through technology deployment. This should be supported by a strong focus on Human Capital Development.

SANEDI was established in 2011 as a Schedule 3A public entity by Chapter 4 of the Energy Act of 2008 (No.34 of 2008). SANEDI initially received operational support from CEF for services such as HR, Legal, Internal Audit and Treasury. Over this transition period, the institute has been developing structures, processes and systems to support its operations and to internalize some of functions previously provided by CEF other than Legal and Treasury.

The following are key statistics relate to the size and scope of the SANEDI operations:

- Personnel complement: 60 (57 staff members and 3 consultants)
- Administrative team: ~42% of total staff complement
- MTEF allocation: ~R60 million
- Total budget: ~R420 million during 2016/17
- Number of programmes (i.e. effectively representing divisions of the organisation): 3 of which 1 administrative and 2 technically focused
- Established operational functions include: Finance, Procurement, Human Resources, Logistics, the Project Management Unit, Information and Communications Management and Corporate Services.
- Operational functions not yet established: Integrated Risk Management, Records and Documents Management and Security Management.
- Operational functions outsourced: Legal, Treasury, Internal audit and Secretariat.
- SANEDI has implemented an ERP system (Microsoft Dynamix), the Payroll and the Secretariat are outsourced
- Procedures documented: ~30

The SANEDI Board has requested that an organizational review be conducted to assess the structure, processes and systems for suitability, efficacy and completeness to fulfill its mandate.

### **Delivery timelines**

The review will be required to be done as soon as possible. Prospective service providers are required to indicate the expected time/duration for conducting an organizational review for an organization of this size.

### **Scope of work**

Service providers are invited to propose a methodology/approach and model that would address the following concerns as the focus of an organizational review:

Does the Institutional structure support the decisions most critical to creating value and fulfillment of the mandate?

- Are the current resources appropriate for high impact and critical work in support of the mandate?
- Is the skills set and competency appropriate to support delivery of the mandate and geared to a high performing organization?
- If not, what will it take to upgrade the current skills to an optimum operational level?
- What intermediate measures need to be put in place to attain reasonable operational level
- Are the internal processes and systems adequate to support effective operations and corporate governance in line with best practice and appropriate benchmarks?
- Is there clarity and consensus on the top three to five organizational priorities and on what they mean for decisions in every part of the Institution?
- Recommendation on the best institutional structure that will support and fulfil the mandate.
- Confidentiality

Due the sensitivity of the information that will be made available to the contractor, the contractor is required to sign a SANEDI Non-Disclosure Agreement. All information related the, both during and after completion thereof, shall be treated with strict confidence. Should there be a need however arise to disclose any information gleaned from provision of the Services, which is either directly or indirectly related to SANEDI's business, written approval to disclose such information must be obtained from SANEDI.

### **Technical evaluation criteria**

Service providers are invited to submit the following for a technical appraisal:

- a capability statement with demonstrated experience of successful delivery of similar organizational reviews;
- the composition of the proposed team with CVs of team members;
- proposed methodology for conducting such a review; and
- indicative timelines for conducting a review of this nature;

The technical evaluation will be done in two phases:

Phase 1: Proposals will be assessed against the technical criteria below.

Phase 2: Qualifying service providers will be invited to presentation session to members of the SANEDI Board and management. Service providers that pass the technical evaluation (i.e. phases 1 and 2) will be invited to submit a commercial bid to conduct the review.
