Work specification (and Technical specifications)	<p>1. Project Background</p> <p>The Energy Efficiency Appliance Standards and Labelling (S&L) Programme was initially implemented by the Department of Mineral Resources and Energy (DMRE) in association with the United Nations Development Programme (UNDP) with the aim to reduce energy consumption and greenhouse gas (GHG) emissions by influencing consumers to purchase more energy efficient appliances, removing inefficient appliance and encouraging the penetration of higher energy efficient appliances in South African market. At the end of the collaboration, DMRE mandated the South African National Development Institute (SANEDI) to implement the S&L Programme as an ongoing initiative.</p> <p>The amount of waste electrical and electronic equipment (WEEE) generated yearly in South Africa is increasing rapidly. Waste from electrical and electronic equipment include household appliances such as refrigerators, washing machines and air conditioners to name a few. These appliances contain a mixture of materials that are toxic and hazardous. Hazardous waste that is mismanaged poses a serious threat to the environment and human health. Not only does WEEE harm the environment if untreated, it also causes the loss of precious metals such as copper. In addition to environmental benefits, the strengthening of South Africa’s WEEE recycling system and visibility can create jobs and empower existing SMMEs in the sector.</p> <p>A feasibility study was commissioned by the DMRE to determine the viability of an integrated appliance recycling system. The Study focused on how the government can enforce the proper handling and disposal of appliances to ensure that appliances are dismantled in an environmentally sound manner at the end of their useful life. From the findings of the feasibility study the DMRE intend to implement the Energy Efficiency Appliances Recycling System Pilot project. The Pilot project will be held in the Gauteng region because it is assumed that the region contain the highest number of appliances since it has the highest population. The findings from the Pilot project will be used by the DMRE to support the regulation of the appliances recycling sector.</p>

2. Project Objective

To ensure that electrical and electronics appliances are properly disposed at the end of their functional life. When the WEEE are disposed correctly they won't harm the environment and human health.

To determine how the cost for collecting, transporting and recycling appliances will be covered.

To implement appliances recycling pilot project with the aim to inform policy. The pilot project will inform the DMRE on how to best regulate the appliances recycling sector.

To create appliances recycling awareness and educate consumers, manufacturer, retailers and recyclers on how to correctly recycle electrical and electronics appliances.

To ensure that old energy inefficient appliances are not donated/sold to people in lower income groups. It is important for consumers to know that energy inefficient appliances consume excessive amount of energy and it will cost them a lot of money to operate the appliance.

To build capacity and create awareness of the available and new recycling practices resultant from the implementation of this pilot project.

Scope of Works

3. Project scope

The service provider must work with the SANEDI project team to produce the following deliverables as part of the required assessment:

3.1. The S&L team will provide project documents to the service providers so that they can familiarize themselves with the appliances recycling research that has been done. This will help the service provider when developing their inception report and conducting their own research. The following documents will be shared:

- Feasibility Study to determine the viability of an integrated appliance recycling system published in 2020.
- Business Case for DMRE-SANEDI Energy Efficiency Appliance Recycling System Pilot Project and Energy Efficiency Awareness Creation

3.2. Inception report and presentation to include the following:

- a) A background and introduction
- b) Detailed scope of work
- c) Proposed approach to policy assessment for appliances recycling project
- d) Stakeholder approach and consultation plan
- e) Policy assessment task team, the appointed team will work with the SANEDI project team in monthly working meetings to assign tasks contributing to the assessment
- f) Detailed workplan with project activities and timelines
- g) Feedback from recycling industry key players

h) Recommendations on how to implement a well-planned appliances recycling Project

- 3.3. Policy analysis** to identify any misalignments, gaps and duplications in the existing policy framework for WEEE recycling. Recommend interventions for harmonisation of the relevant standards and policy development or initiatives to strengthen the policy framework for the effective recycling of Large House Household Appliances.
- 3.4.** Complete **stakeholder mapping** for this project presented in a narrative report and quadrant form to understand roles and influence levels of various stakeholders in the sector
- 3.5. Market analysis** to understand the nature of existing recycling facilities in the South Africa and their capacity to process WEEE, de-manufacture Large Household Appliances and treat toxic waste in the process.
- 3.6.** Produce ideal capacitation plan to empower recycling SMMEs to process the relevant WEEE.
- 3.7.** The service provider must be able to demonstrate research findings to the Appliances Recycling System Pilot Project Steering Committee in a maximum of two Project Steering Committee Meeting seatings.

4. Project Duration

- **4 months**

- (l) “proof of B-BBEE status level of contributor” means:
 - B-BBEE Status level certificate issued by an authorized body or person;
 - A sworn affidavit as prescribed by the B-BBEE Codes of Good Practice;
 - Any other requirement prescribed in terms of the B-BBEE Act;

- “QSE” means a qualifying small business enterprise in terms of a code of good practice on black economic empowerment issued in terms of section 9 (1) of the Broad-Based Black Economic Empowerment Act;

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS A maximum of 80 or 90 points is allocated for price on the following basis:

$$P_s = 80 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right) \quad \text{or} \quad P_s = 90 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right)$$

Where

P_s = Points scored for price of tender under consideration

P_t = Price of tender under consideration

P_{min} = Price of lowest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—

(a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or

(b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system, then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.
