

The access rate to electricity in Sub-Saharan Africa is half of the global access rate – SDG7, Sustainable Development Goals Report 2021

Would you like to be part of changing Africa's energy future?

SCHOLARSHIP FOR POST-GRADUATE STUDIES **Financial support and mentorship are available to assist a graduate student to take forward the vision of the late Dr Doug Banks**

If you are:

- A South African national or permanent resident who is passionate about making a difference in people's lives in the African continent?
- Fired up about addressing Energy Poverty and Energy Access through energy services provided by Renewable Energy systems?
- Committed to the achievement of the Sustainable Development Goals and addressing the challenges posed by Climate Change?

...you may be just the person to apply for a DBREV Scholarship!

A two-year DBREV Scholarship is available to study towards a relevant Masters degree at a South African university, commencing in 2022. Applicants should have a background of either engineering, science, environment & geographical science, finance, economics, or development studies and be eligible to register at a South African university.

- Only South African citizens or permanent residents may apply
- Application via the website: www.dougbanks.co.za
- Closing date **Monday 4 October 2021**

with thanks to
DBREV sponsors
