Work specification (and technical specifications)	1. Project Background The South African Energy Development Institute (SANEDI) was established in 2011 under the National Energy Act, Act No.34 of 2008. The Act provides for SANEDI to direct, monitor and conduct energy research and development, promote energy research and technology innovation as well as undertake measures to promote energy efficiency throughout the economy. The Department of Science, Technology and Innovation (DSTI) contracted the South African Energy Institute (SANEDI) as the LEAP-RE Programme implementation agency. The programme is structured into two sub programmes namely Joint Call 1 which comprises seven projects. Joint call 2 comprises five additional projects. The LEAPRE programme seeks to procure a service provider to design and deliver shirts, jackets and safety personal protective equipment (PPE). The main objective of this procurement is to capacitate the programme team, promote the programme and reinforce relationships with stakeholders. These materials will be used to facilitate engagements during meetings, workshops, conference and site visits. It is therefore crucial that the designs support programme visibility, while also aligning with awareness raising initiatives. Given the high frequency of engagements as project implementation progresses, a printing contractor is required to provide design and printing services on an as-needed basis during the 25/26 financial year. Minimum requirements • Service provider must have 3 years' experience • 3 reference letters 2. Project Objectives • Printing and delivery of material and branded apparel to be utilized for engagements.
